

SMOKEHEADS

all in!

ALL IN

Another round
Is in right in front
Last step to dread
Keeping is not owning
I bet our own making
Of the eternity
Has been broken
By our lethargy
And a simple bad beat
I go all in / all in
Now I will make my own choice
Does the life penalise
For the lies
Truth remains a fake
And goes on
My integrity
Is violated
By dealers
And poker faces
Does life penalize for all the fault and lies?
The truth remains a fake
Hope as no guarantee
Something goes wrong
We're getting close
To the borderline
It seems all will decline
Convince our body
All the introduction
Of principles and life
Are calling weapons and fear
For now and the eternity
I go all in / all in
Now all goes wrong
We're going to explode it
The real borderline
It seems all will decline

LET ME BE

Let me be
Be myself
It's not that simple
I wish I were you
And you'd like
To be me
Through your eyes
Makes me want to disappear
That looks such an heavy fear
Vision is wrong
Through my eyes
I'll be fucking wrong again
Look ahead, move forward
Instead of looking at what they are
Keep your head up and feel the breath
Just be yourself and be the same
Just be yourself and be the same
Let me be be myself
Let me be be myself
Let me be be myself
Not easy to stand and keep the flame
You're drowning in a flood of lies
Keeping the mask on your face
Makes you want to disappear
You feel trapped and suffocated
Grab everything and go to fight
I'm not so different from you
Look ahead and move forward
Keep your head up and feel the breath
Just be yourself and be the same
Just be yourself and be the same
Let me be be myself
Let me be be myself
Let me be be myself
Just stay who you are
Fuck up conventions
Fuck up their looks
Fuck up their judgments

Don't give them reasons
Don't say who you are
You take out your chance
And just move forward
It is to hard
To be someone else
Think for yourself
And all will be fine

HATE AND LOVE

Heavy silence
You look away
I feel the hate in you
You want me to disappear
'Reasons are always the same
Restore the truth
Is love only going in one direction?
Hate and love
Two feelings so close
Cohabitation is tough
You want me to disappear
'Reasons are always the same
Restore the truth
Is love only going in one direction?
There is no longer any excuse
The limit is exceeded
No possible return
Hate above all
'Reasons are always the same
Restore the truth
Is love only going in one direction?
Broken dialogue
You don't want to understand
Each other anymore

REVEAL YOUR SOUL

Take off your mask
 And reveal your soul to the world
 Your protection falls
 Your feelings exposed
 The burn on your face
 They all look at you

Without face or expression
 What a way what a way
 Without desire or passion
 What a way what a way
 Maybe better maybe higher
 Show the way show the way
 It did nor reached your bones either
 Anyway

Like liquid metal
 Hide your human side
 Mystical creature.
 You only scare yourself
 You only rule the world of the dead

Take off your mask
 Freeze your expression forever
 Without desire
 Within the fire
 The burn on your face
 They all look at you

Without face or expression
 What a way what a way
 Without desire or passion
 What a way what a way
 Maybe better maybe higher
 Show the way show the way
 It did nor reached your bones either
 Anyway, anyway

You move like a ghost
 No visible feelings

Without face or expression
 What a way what a way
 Without desire or passion
 What a way what a way
 Maybe better maybe higher
 Show the way show the way
 It did nor reached your bones either
 Anyway, anyway

ONE MILLION WAYS

*I don't know why and it does not matter,
 I kept that in mind and did not spread over
 that at the end of the day I cried. At first
 it was unreal but after all I wasted my time
 and watched you go. I kept everything
 inside, so now the memory remains
 but the life's calling me and I accept
 the outstretched hand I see.*

Anytime you think I'm lost
 You need to figure out who I am
 No pain, no loss, no tears

Caus' there are
 One million ways turn the light on
 One million ways that's another day
 One million ways go beyond the chains
 One million ways turn the light on

Anyway, anyhow, it was not easy to carry on
 All bad moments are behind
 The light over there is on

Caus' there are
 One million ways turn the light on
 One million ways that's another day
 One million ways go beyond the chains
 One million ways turn the light on

No doubt for me
 Best way is here
 What you've done is great
 On the stage again, ready to live
 I can breathe again
 Dark throne is mine
 I can feel it good, can still drink blood
 And I breathe again
 Got rid of all that chains
 Don't feel the pain anymore
 I am a man who pushes the door

IN BETWEEN

When the lights turns on
 I don't realize that
 I am paralyzed
 No one's around me
 No hierarchy, no penny

Face to face with that color
 Taken away far
 From all that shit

'Don't want to stay here
 Let me get out of here
 'Don't want a comeback
 'Don't want the pain and the dark
 To avoid the night
 To avoid the day
 'Don't want a comeback
 'Don't want the pain and the dark

The light's talking to you
 Like to a son
 No sense, no weigh, no rivalry
 Life's behind you
 She's calling you
 If only I could remain
 In that state
 Blinded by the eternity
 I can hear the silence
 Of a tender voice

'Don't want to stay here
 Let me get out of here
 'Don't want a comeback
 'Don't want the pain and the dark
 To avoid the night
 To avoid the day
 'Don't want a comeback
 'Don't want the pain and the dark

I saw this face somewhere
 This space in the air
 I was not made aware
 I could meet you there
 Could touch your body
 And hear your breath
 So close to me
 Take my hand
 And pull me out
 Take my hand

SMOKEHEADS ALL IN

LET THE WIND BLOW

It start like a breath
 So quiet and so sweet
 And you feel it on your skin
 Gentle and warm
 Wish it never stops
 You feel it on your face
 You feel all the love
 Moment of plenitude
 You move forward
 Without fear
 You didn't doubt
 You didn't doubt
 The power of this element
 Blessed the simple-minded
 Who don't recognize
 All the signs
 Who don't recognize the signs
 You feel it deep inside
 You are strong but alone
 Darkened sky / facing yourself / rough sea
 Pressure is still / so high
 And now you fall
 Don't know where to hold on
 So open your arms

And let the wind blow
 Let the wind blow
 Do not resist
 Do not resist
 Go through the waves
 Let it take you away
 Above your worries
 Above your troubles

Whenever you think everything is over
 Remember you lived "brothers in arms"
 And you went through the time
 Without feeling the fakes
 Believe in your life, throw the lies
 And always keep in mind
 That after the storm comes the calm
 Don't be scared, open your eyes

And catch my hand
 Absorb the waves, we'll follow the light
 And you'll see, fairies and elves
 Let yourself get higher like a bird
 Look above and along
 The way you could be strong
 Look around you all the earth is on fire
 If you let it go you will keep your empire
 Don't you see your renaissance is on its way
 You can't stay with some scars on the heart
 And words under the skin

And let the wind blow
 Let the wind blow
 Do not resist
 Do not resist
 Go through the waves
 Let it take you away
 Above your worries
 Above your troubles

Let the wind blow
 Do not resist
 Let it take you away
 Above your worries, above your troubles
 You can feel it deep inside
 You are strong but alone
 Darkened sky, facing yourself
 Pressure is still so high

And let the wind blow
 Let the wind blow
 Let the wind blow
 Do not resist

NOTHING IS RANDOM

In the right place, at the right time
 Things must happen as well
 We do not even realize
 Sometimes it's like that

Mysterious universe
 When everything is aligned
 Am I handler of my fate?

Is everything written?

In the right place
 At the right time
 It is not at all
 Like a turn around
 Do we have the choice to control our life?
 Unexpected planned moment

When I fall it looks like an accident
 A happy fall
 Unexpected moment
 Everything was planned nothing is random
 And I feel all was made to make me alone
 Everything was planned nothing is random

Do we really have the choice?
 An illusion of our life
 Or someone is playing with us
 Like puppets without conscience

In the right place
 At the right time
 It is not at all
 Like a turn around
 Do we have the choice to control our life?
 Unexpected planned moment

When I fall it looks like an accident
 A happy fall
 Unexpected moment
 Everything was planned nothing is random

PRAYER OF AN AGNOSTIC

Remaining in doubt
 This should be our thought
 Too many certainties for some of us
 How is it possible?
 So many contingencies
 I remain in doubt

Is it really necessary to kneel down?
 Is it really necessary to join hands?
 Do you have to lie down?

To ask
 But what exactly?
 What admiration
 For those who know
 Knowledge pushes us

Is it really necessary to search the reasons?
 Is it really necessary?

Recognize the signs
 Who is full of certainty?
 I believe those who know the least
 But then how do you know?
 What is the truth?

Remaining in doubt
 This should be our thought
 Too many certainties for some of us
 How is it possible?
 So many contingencies
 I remain in doubt

SIDE BY SIDE

You know I always meant
 That life is like a gift
 No matter what happens
 And no matter what is said
 We have kept our second skin
 That protected us from evil
 We were so close from the stars
 And we lived as we are

I could live anywhere
 As far as I could feel you there
 And for sure I will miss
 The life of which I'm proud
 The death is life without
 Without body nor clouds
 I trust you will not chase
 The demons in any case... so

I don't see why you should carry all that pain
 I want to see you strong for the time that remains
 I'm on the same direction on the same rail
 I'm just on the other side and I'll be waiting for you

You think you're left behind
 I'm close to you but with my mind
 No pain on the chest
 We did all the best
 The best of any kind

I don't see why you should carry all that pain
 I want to see you strong for the time that remains
 I'm on the same direction on the same rail
 I'm just on the other side and I'll be waiting for you

I don't see why you should carry all that pain
 I want to see you strong for the time that remains
 I'm on the same direction on the same rail
 I'm just on the other side and I'll be waiting for you

THE RIGHT DIRECTION

You say you're lost in your way
 You're a ghost at night
 You don't find the good timing to play
 You cry, you're lost in your life
 You lost what seemed to be the way
 A dark path to cross and you may...

Access that time, to look for a compass
 To find what? To find that
 You feel you're away
 Light in front is on, the right direction
 To find what? To find what?
 To find that

You say, you don't see it that way
 You're even more confused
 And somewhat you feel disabused
 Don't ask for a change, at the end of the day
 Start again

 Convert into a state of grace

You need the time, to look for a compass
 To find what? To find that
 You feel you're away
 Light in front is on, the right direction
 To find what? To find what?
 To find that
